

Really, Really Free Market!

*We
Need
Your
Help!*

When: Saturday, December 8, 2018

10:00AM – 2:00 PM

Where: McGraw High
School Cafeteria

State The Facts:

As temperatures continue to escalate, due to more greenhouse gases being released into the air (carbon dioxide and methane), we need to start reusing items and not throwing them away!

We can reduce the harmful damage being done to our Earth and atmosphere by taking small steps that will lead to big differences!

*Sponsored by The McGraw
High School Environmental
Club*

What Is It?

The Really, Really Free Market is an event where you can bring anything used (not broken, dirty, or huge!) or new that you **don't want**. (Donations not mandatory)

Then, shop for FREE!

(A totally free garage sale!)

Why?

Reusing is even more environmentally friendly than recycling. Help your community and Earth by not adding to the waste in the landfills.
